What a day

Med. Swing

What a day to wake up to... The sun is shin-in' and the sky is blue... What a day to fall in love with you... Hey, hey, yeah!

What a day to sing a song. The birds are callin' that the winter's gone. What a day to love the whole day long...

What a day! Sing a song! The winter's gone, what a day to love the whole day long...
This is the day that we've been searching for
The sun will shine forever, and then it's gonna shine some more.

What a day to spend with you, all day together, not a thing to do,
What a day to fall in love with you, what a day, what a day!
What a day to spend with you.
All day togeth-er, not a thing to do.
What a day to fall in love with you.

What a day to spend with you.
All day togeth-er, not a thing to do.
What a day to fall in love with you.

What a day to fall in love with you.
